

## PRESS RELEASE

### Rohde & Schwarz and Radionor sign follow on strategic partnership

**Rohde & Schwarz and Radionor Communications enter strategic partnership for the supply of long-range communication equipment.**

Munich/Trondheim, December 5th, 2019: Rohde & Schwarz GmbH & Co. KG awarded Radionor Communications AS a supply contract for high-tech wireless long-range communication equipment.

The unique capabilities of Radionor Communications include implementation of phased array technology, giving the user long range, robust, high data capacity and easy-to-operate wireless connection. This is perfectly suited for flexible deployment of critical systems, matching Rohde & Schwarz' high requirements.

"We are excited to be selected as a sub-supplier by Rohde & Schwarz," Atle Sægrov, CEO of Radionor Communications, says. "We already have a lot of Rohde & Schwarz' advanced measurement equipment in use in our lab, as the company is known for extreme precision. As they are one of the top-notch companies with a unique brand within the security and defense industry when it comes to quality and performance, it is a big achievement to partner and we are extremely proud."

"Rohde & Schwarz is pleased to now have entered into this long-term agreement, as we have been working with Radionor Communications for many years in various test and demonstration projects," Constantin von Reden, Vice President Market Segment ATC, Rohde & Schwarz, concludes. "The future potential for Radionor Communication's technology in our projects is significant."
